HAPPY BIRTHDAY TO YOU!

EMPLOYEE CENTER

BEAT THE HEAT! The extremely high temperatures experienced during June all over the country can be taxing and hazardous on both drivers and vehicles. Truck engines can overheat and require the driver to wait in the heat for roadside assistance. Excessively hot roads can affect truck tires and make braking less predictable.

Summer Survival Tips!

Staying cool behind the wheel is very important. Heat affects the body by reducing blood flow to the brain, muscles and organs. Here are common health and safety hazards of working in the heat. It's important to recognize the symptoms, know how to avoid them, and also how to cope with them if they do occur.

- Heat Rash
- Heat Stress
- Heat Cramps
- Heat Exhaustion

ALWAYS drink plenty of water and remember to STAY HYDRATED!

“Keep your face to the sun and you will never see the shadows.”

SAFETY ZONE

Food Handling Safety for Eating Outdoors!

Be safe while enjoying the summer picnic and barbeque season. Bacteria can multiply rapidly in foods when eating outdoors. Safe food handling tips can prevent foodborne bacteria that can lead to illness.

- Wash
- Separate
- Cook
- Refrigerate

Barbeque season is upon us, SAFETY first!

We appreciate you!
