Use Extreme Caution While Driving in a Winter Wonderland!

Many parts of the country have seen the first snowfall of the season and driving in these conditions can be extremely dangerous. Underneath all the snow can be slick, icy, treacherous roadways! Many drivers will spend a long winter season in these conditions, so it is important to be prepared.

Following are winter driving tips:

- Physically prepare for wintry weather conditions.
- Drive defensively and cautiously.
- Slow down. Drive to match road conditions.
- Be prepared! Jumper cables, windshield scraper, windshield washer fluid, tire chains or traction mats are good items to carry!

Make it a habit to ensure your card is with you at all times when driving as required by the Federal Motor Carriers Safety

Regulations. Not having a physical card during a roadside inspection will result in a violation, and the points can affect the US DOT CSA rating for you and the motor carrier. Driving without a CDL in your possession can result in a violation of eight points charged to you and the motor carrier. Do you know your CDL expiration date; do you have endorsements needed to perform your duties? Driving without the proper endorsements results in an 8-point severity rating for each missing endorsement.
