TRUCKER CHAT

Will you Survive Winter?! Even if you have done a good job preparing your vehicles for winter, you still need to pay special attention to a few key items during the winter: Remember that diesel exhaust fluid (DEF) begins to freeze at 32° F and try and keep vehicles running not idling.

Safety Tips for driving during the Winter:

- Be prepared for every situation
- Inspect your truck
- Check the conditions
- Drive carefully
- Drive smoothly
- Be mindful of hazards (black ice, heavy rain & fog)
- Be careful when entering and leaving your truck
- Know when to stop

Professional truckers are always prepared for winter weather conditions but use these tips as a reminder of how important it is for truck drivers to plan for the winter months.

The entire TQM family would like to wish you and yours a very safe, blessed, and happy holiday season!
