TRUCKER CHAT

Speeding tops list of violations found during CVSA's Safe Driver Week! Speeding, which was the focus of this year's Operation Safe Driver Week, was the top violation – in the number of warnings given and citations issued – for drivers of both commercial motor vehicles and passenger vehicles.

Safety Tips for driving during the Winter:

- Be prepared for every situation
- Inspect your truck
- Check the conditions
- Drive carefully
- Drive smoothly
- Be mindful of hazards (black ice, heavy rain & fog)
- Be careful when entering and leaving your truck
- Know when to stop

Professional truckers are always prepared for winter weather conditions but use these tips as a reminder of how important it is for truck drivers to plan for the winter months.

Remember that diesel exhaust fluid (DEF) begins to freeze at 32° F and try and keep vehicles running not idling.

Save Lives: Don't be a Distracted Driver! There are three main types of distractions: 1. Visual: taking your eyes off the road 2. Manual: taking your hands off the wheel 3. Cognitive: taking your mind off driving

Stay Visible - Turn on your headlights to increase YOUR visibility to others. Being visible is critical to alerting other vehicles and pedestrians of your presence.
