SAFETY ZONE

Review Maps and Plan Your Route Before You Leave on Your Trip. Be sure to plan your driving route before getting behind the wheel so you can keep your schedule and prevent distractions that may occur while trying to read a map or directions. You may use electronic devices, such as a navigation system, to aid you when you are unfamiliar with the roadway. However, remember to use technology appropriately (pull safely to the side of the roadway or stop and take a break), otherwise it can be a source of distraction.

Speed Limits. As a professional driver, you are expected to comply with the posted speed limits. For large vehicles, the stopping distances are greater than smaller vehicles, and highway speed limits are often set differently for trucks. Lowering speed gives you the time to see ahead and the ability to adjust to adverse conditions as they develop. Stay Safe, Stay Alert, and Drive Safe!

IMPORTANT! October is right around the corner, and with it comes increased risk due to certain conditions that don't exist in the summer. Cooler weather, falling leaves and more create situations for which every trucker needs to prepare.
